## Education.

School Repairs	3 00
Library	40 80
	<u>\$1,733 17</u>

\*Could have been paid from appropriation had bill been received in time.

### **The Treasurer's Cash Account**

The cash on hand, December 31, 1918, was verified by me by actual count, and the cash in the bank was verified by reconciliation of the outstanding checks with the book and bank statements, and was further verified by a letter received from the bank certifying to the amount to the credit of the Town of Saugus at the close of the business, December 31, 1918.

### **Taxes Collected**

The accounts of the Collector were checked. The cash books were footed and the payments to the Treasurer verified and compared with the receipts as recorded by him on his books.

### **Trust Funds**

I have compared the savings bank books in the hands of the Treasurer with the amount called for in the Perpetual Care Fund Account as being on deposit December 31, 1918, and the books and the amounts agree.

### **Sinking Fund**

The cash in the bank was verified by me by a reconciliation of the checks and the bank statements, and was further verified by a letter received from the bank certifying to the amount to the credit of the Sinking Fund Account in both the savings bank account and the check account at the close of business December 31, 1918.

I, also, examined the securities, in the hands of the Treasurer, which consist of the following:

One Town of Saugus bond, due May 1, 1919	\$1,000
Town of Saugus bond, due May 1, 1920	1,500
Third Liberty Loan bonds . . . .	1,700

These bonds agree with the amounts which they should have on hand at the present time.

This fund will expire on May 1, 1919. In order to have sufficient funds to meet the Felton School Bond, which will be due on May 1, amounting to \$5,000, it will be necessary for the Commissioners to dispose of their Liberty Loan Bonds. It will, also, be necessary for the Town to appropriate \$1,500 to retire the bonds which will not be due until May 1, 1920. In other words, they will be retiring them one year before they are due.

Respectfully submitted,

GRANVILLE A. CLARK,

*Town Accountant.*

January 30, 1919.

## Summarized Statement of the Appropriation Accounts for Year Ending December 31, 1918

*Town Clerk.*

## Report of the Board of Selectmen.

---

### *To the Citizens of the Town of Saugus:*

We all recognize the fact that during the calendar year just passed our country has been at war, and incident thereto, conditions have prevailed which have rendered the carrying out of all plans more or less onerous and, at times the execution of them has been difficult, if not impossible.

High prices have prevailed and the employment of labor has been seriously curtailed and restricted. Like all other citizens, your Board of Selectmen have been made especially cognizant of these conditions, but have cheerfully tried to adapt itself and its work to the abnormal state of affairs.

Requests and orders from the Federal government have been received, from time to time, which have called for curtailment along certain lines of endeavor, but we have felt that these restrictions, and in some cases prohibitions, ought to be readily and strictly adhered to, and have sought, in every possible manner, to further the interests of the national government, co-operating to the fullest extent; that the end which all so earnestly desired might be accomplished.

In the Public Works Department substantial progress has been made and the imperative needs of the town have been fulfilled in so far as the appropriation and the Federal regulations would permit.

The main arteries of travel have been given careful attention and work of a substantial and permanent nature has been performed. Lincoln avenue, Winter and Central streets have been placed in a very fair condition and the permanent work on these highways was a much needed improvement.

Other streets have been treated in various ways, depending upon the nature of the work required. Some have been resurfaced with crushed stone and filled and bound with tar. Tar and gravel have been used in many instances and gravel alone has been used where only that was necessary.

The drainage situation has been considered and improvement of a definite nature has been accomplished. This is particularly

noticeable on Morton avenue and Bristow street, where conditions were especially defective, calling for immediate attention.

As to water extension, no work has been done due to the failure of an appropriation. The Water Department has, however, been active and all applications for new services and repairs have been granted. The annual appropriation for Water Maintenance was depleted to the extent of approximately \$5,600 at the time the present Board of Selectmen assumed office. This depletion was attributed to the expenses incurred, due to the unusually severe winter of 1917 and 1918, with the resultant very large number of freeze ups and breaks. One hundred and twenty-nine repair jobs have been attended to during the past year as compared with thirty-one repair jobs for the preceding year.

A thorough overhauling of the hydrants in town has been made, and they are now in first-class working condition. This is a matter which it was felt deserved immediate and proper attention, and it was imperative that the heretofore defective condition ought to be remedied at once.

The equipment of the Public Works Department has been improved by the addition of a motor truck which has greatly assisted in promoting the efficiency in the department.

In passing, the Board of Selectmen desire to call attention to the very commendable work of the acting superintendent of the Board of Public Works, Mr. Peter Haigh, who, through his efficient and intelligent administration, has greatly contributed to the success of the department.

The transportation situation, as regards the Bay State Street Railway Company and the Boston & Maine Railroad, is still of serious moment in our town and demands prompt, energetic and intelligent consideration. The Board of Selectmen have endeavored to safeguard the interests of the town in so far as possible and have done its utmost to remedy the present state of affairs. Every opportunity has been taken advantage of to protest against the inadequate service, and the town has been represented, either through the Board of Selectmen or the Town Counsel, at every meeting, hearing or conference at which the transportation facilities of Saugus were to be discussed or considered. The announced intentions on the part of the Bay State Street Railway Company to discontinue the Saugus-Melrose line and the Saugus Centre-Boston line resulted in a strong protest being made and your Board of Selectmen strenuously fought the proposed discontinuance. For the present, at least, the

company is to continue to operate these lines, and, while the ultimate outcome is problematical it is hoped that with the now different supervision by the Board of Trustees, recently appointed by the Governor, a satisfactory solution may be had.

The Board of Selectmen felt that some appropriate action ought to be taken by way of showing appreciation for the patriotism, loyalty and devotion of our young who have entered the service of the Army and Navy. We, therefore, appointed a committee to provide ways and means for an Honor Roll Board, and the committee are in hopes, very soon, to have the Honor Roll Board erected and suitably inscribed.

The welcome home of these young men is a matter which concerns us all, and adequate recognition of their services ought to be provided. A committee of citizens has been appointed to formulate and carry into execution plans for this home coming, and we earnestly urge that every assistance be given to this committee, that the welcome may be, in a measure, at least, commensurate with the service and sacrifice which our young men have so splendidly shown.

Respectfully submitted,

FRANK B. SLOAN,  
FRANCIS M. HILL,  
WALTER SPRAGUE.

## Report of Chief of Police

---

### *To the Honorable Board of Selectmen:*

GENTLEMEN,—In accordance with the requirements of the Town Ordinance I have the honor to submit my twenty-third annual report of the Police Department for the year ending December 31, 1918.

### **Chief of Police**

Charles O Thompson.

### **Patrolmen**

Captain Roland L. Mansfield, Frank W. Joy, James P. Sullivan, Herbert C. Berrett, John T. Stuart, Clifford E. Robie.

### **Special Police**

Peter A. Flaherty, William M. Penney, Timothy J. Bannon, Frank M. Symonds, Carl F. Koch, Howard P. McAdoo, William H. Semons, Walter W. Hanson, Samuel C. Maddox, Justin E. Mansfield, Thomas E. Berrett, George W. Parker, Nathan H. Williams, Christopher C. Merrithew, Thomas E. Sutherst, Charles F. Clark, W. Charles Sellick, Daniel B. Willis, Harvey Upham, Robert T. Allen, Frank Whitford, John H. Newhall, Harry E. Newhall, Merrett S. Foye, John F. Heath, Charles E. Light, Ole Christiansen, Harry H. Thompson, Charles E. Stillings, Andrew C. Lynn, George W. Atkinson.

### **Arrests**

Total number of arrests for the year of 1918 was 248 of which 240 were males and 8 females.

The following are the offences: Assaults, 20; arrested for out of town officers, 3; breaking and entering, 8; breaking glass in fire boxes, 2; cruelty to animals, 7; drunks, 32; disturbing peace, 4; disorderly conduct, 2; dogs not licensed, 6; defacing building, 16; gaming on Lord's Day, 25; hunting, no license, 3; illegal sale of liquor, 1; illegal keeping of liquor, 1;

indecent exposure, 1; indecent language, 1; larceny, 19; setting brush fires, 1; non-support, 4; neglected children, 8; riding bicycles on sidewalk, 2; stubborn child, 1; suspicion, 6; truancy, 1; trespass, 2; violation Town By-Laws, 11; violation school laws, 7; violation automobile laws, 51; violation Board of Health laws, 2.

### **Disposition of Cases**

Fined, 97; filed, 49; discharged, 18; defaulted, 4; released, 18; committed to State Farm, 1; committed to House of Correction, 5; committed to State Board of Charity, 6; committed to Danvers Hospital, 9; held for Grand Jury, 5; appealed, 6.

### **Keeper of Lockup**

There were 57 prisoners locked up during the year; cost of keeper, \$184.45; meals for prisoners, \$12.35; total expense of lockup, \$196.80.

### **Recommendations**

I would recommend that the sum of \$11,500 be appropriated for the year of 1919.

### **Conclusion**

In submitting my report, I wish to thank the Honorable Board of Selectmen for the support given me; also Judge William E. Ludden and others who have assisted me in the performance of my duties. I also desire to tender to the officers both regular and special, my appreciation for their loyal co-operation.

Respectfully submitted,

CHARLES O. THOMPSON,

*Chief of Police.*

## Report of Board of Engineers

SAUGUS, MASS., January 13, 1919.

*To the Honorable Board of Selectmen:*

GENTLEMEN,—Your Board of Engineers herewith submit their annual report for the year ending December 31, 1918. The Department consists of, Chief engineer, two deputy chiefs, three permanent men, and twenty-four call men.

### Apparatus

Three combination auto trucks, three hose wagons, one ladder truck.

### Recommendations

We consider the ladder truck unsafe and would recommend replacing same with an auto ladder truck.

### Equipment

Four double harnesses, six horse blankets, thirteen hand chemicals, twenty-five firemen's coats, three life nets twenty hose lighters, twenty-five spanners, six crow bars, seven axes, six plaster hooks, ten gates, one triple gate, two forty-five foot extension ladders, one thirty-five foot extension ladder, six 30, 20 and 18 foot roof ladders, six wall ladders, sixteen tappers, one punch register, two ink registers, one hose repairer.

### Fire Alarms

Forty-one bell alarms, seventy-nine still alarms.

Respectfully submitted,

ERNEST STUART,  
J. W. NEWHALL,  
GEORGE W. ATKINSON,

# Report of Overseers of the Poor

## Charities Department

### *To the Citizens of the Town of Saugus:*

Your Board of Overseers herewith submits its annual report for the year ending December 31, 1918.

Out of our appropriation of \$8,800, we have spent \$7,765.78, leaving an unexpended balance of \$1,034.22, the amount left on our appropriation after deducting all payments on bills rendered to December 31, 1918.

We have collected \$1,932.36 from the Commonwealth of Massachusetts and \$458.39 from cities and towns which, with the amount left from our appropriation, makes a total of \$3,424.97 returned to the Town Treasury; we have one unpaid bill of \$4 which was rendered since January 1, 1919, and there are some unpaid bills due the City of Lynn which we have been unable to get but we estimate the amount to be about \$100.

We recommend that the sum of \$9,100 be appropriated for the year 1919. We now have quite a few cases of Mothers' Aid, under Chapter 763, which calls for an increase of about \$1,500, therefore, we consider that this sum will be none too much.

### Saugus Home

We have received on account of the Home, from all sources, the sum of \$12,648.20 and our expenditures have been \$11,500, which was the amount of our 1918 appropriation, and there are unpaid bills to the amount of \$575.14, which could not be paid as the appropriation was not large enough. This shows a net profit of \$573.06 to the credit of the Home after paying all bills. We feel that this very successful showing is due to the excellent management of our efficient Warden and Matron, particularly so when we take into consideration the scarcity of labor and the high cost of materials.

The Board concludes this report by recommending that the sum of \$12,200 be appropriated for the ensuing year.

Respectfully submitted,

GEORGE H. AMES, *Chairman.*

ANTHONY HATCH,

EVAN EVANS,

*Overseers of the Poor of Saugus.*

## Report of Building Inspector

SAUGUS, MASS, December 31, 1918.

*To the Honorable Board of Selectmen:*

GENTLEMEN,— I herewith submit my annual report to date :

### Permits

Total number issued	.	.	.	.	.	.	.	120
To build	.	.	.	.	.	.	.	56
Elevator	.	.	.	.	.	.	.	1

## Report of Tree Warden

---

*To the Citizens of the Town of Saugus:*

I hereby submit to you my annual report for the year ending December 31, 1918.

I have removed a number of dead trees in different parts of the town, and removed a number of dead and dangerous limbs, and have trimmed trees in all parts of the town. I would recommend the sum of two hundred and fifty dollars for the coming year 1919.

Respectfully submitted,

T. E. BERRETT,

*Tree Warden.*

---

## Report of Forest Fire Warden

---

*To the Honorable Board of Selectmen:*

I submit to you the following report from January 1, 1918, to January 1, 1919.

I have taken care of fifteen forest fires and answered several calls from the State Forest Fire Warden. Being able to get to these fires soon after they started, I put them out at a very small cost. I would recommend the sum of one hundred dollars for the coming year 1919.

Respectfully submitted,

T. E. BERRETT,

*Forest Fire Warden.*

## Report of Board of Health

---

SAUGUS, MASS., January 15, 1919.

The Board submits the following report for the year 1918. Organization as follows: Chairman, Charles E. Light; Secretary, Tom D. Emmett; Medical Inspector, George W. Gale, M. D.

### Meetings

Regular meetings of the Board are held at the Town Hall on the first Monday of each month at eight o'clock P. M., Room 8.

### Appointed

Plumbing Inspector, Thomas C. Sutherst; Inspector of Milk and Cattle, Arthur W. Sawyer, V. S.; Burial Agent, Henry A. Parker; Care of Dead Animals, W. Charles Sellick.

The work of the Department increases with each year's State legislation, making the duties more arduous and requiring more time than in the past; in consequence of this, we recommend the citizens placing the Board on a salary commensurate with the duties performed.

### Piggeries

The requirement of a permit to keep one or two pigs at a time has been waived, to encourage food conservation, with good results; persons are required to keep the same in sanitary manner and avoid violating regulations regarding swill carried on the highways.

### Dairies

We have a great many small dairies, producing milk for consumption, in Saugus, which call for frequent inspections as the danger from small producers is often greater than from larger ones; these often come into the market unnoticed until they have delivered considerable milk to the citizens. This is a very important part of the department's work and one through which disease often gets a start, and the State Department expects the local Board to keep all such places under strict observation which we do through an Inspector whom we appoint each year at a salary of \$100.

### Influenza Epidemic

The recent epidemic called for unusual activities and expense which, however, did not exceed the amount expended in the years 1914-1915 under normal conditions. The years of 1916, 1917 show a saving over previous years.

We feel that the appropriation can be much more economically expended under the supervision of some one in close and constant reach for immediate investigation of claims made for hospital care and medical attention, thereby getting the best results for the patients and the most for the money expended.

### Permanent Office at Town Hall

We now have a permanent office at the Town Hall, Room 8, Telephone 89, office hours, 9 to 5, which will be a great help in the efficiency of the department.

Respectfully submitted,

CHARLES E. LIGHT, *Chairman*,  
TOM D. EMMETT, *Secretary*,  
GEORGE W. GALE, *Medical Inspector*.

*Board of Health of the Town of Saugus.*

### Report of Inspector of Plumbing

December 31, 1918.

*Board of Health, Saugus, Mass.:*

GENTLEMEN,—In accordance with the requirements of Chapter 103 of the Revised Laws of Massachusetts of the supervision of plumbing, I hereby submit my report for the year ending December 31, 1918.

The number of inspections made during the year, together with other inspections, will be found in table herewith annexed.

Total number of inspections	.	.	.	245
Permits issued	.	.	.	59
Permits refused	.	.	.	2
Complaints of violation of ordinance	.	.	.	3
Complaints investigated	.	.	.	3
Cesspools inspected	.	.	.	68

Respectfully submitted,

THOMAS C. SUTHERST,

*Plumbing Inspector.*

## Report of Cattle and Milk Inspector

*To the Board of Health:*

GENTLEMEN,—I have inspected the following animals.

Beeves	.	.	.	.	.	.	.	2
Hogs	.	.	.	.	.	.	.	160

All suitable for food.

In making the annual inspection I examined :

Cattle	.	.	.	.	.	.	.	663
Hogs	.	.	.	.	.	.	.	352
Goats	.	.	.	.	.	.	.	2

Total	.	.	.	.	.	.	.	1,017
-------	---	---	---	---	---	---	---	-------

I have issued 60 milk licenses.

Respectfully submitted,

A. W. SAWYER.

## Report of the Library Trustees

---

The primary object of a public library is to further the spread of knowledge by making it possible for a large number of people to read good books. Hence, for a library to increase its circulation is to add materially to the wealth of the community it serves.

It is a source of gratification to the trustees that with a larger appropriation at our command we have been able to add a greater number of good books to the library than in any year heretofore.

To increase the use of these books is the first consideration of the trustees. Advertising can be made to play a great part in this work just as it plays a great part in increasing the use of any community. The very best kind of advertising is that which comes by word of mouth from those who have been benefited by the use of a thing. The trustees feel that if the people who use the library would talk about it and interest their friends in it they would assist greatly in increasing its circulation, and so benefit the library, the town, and themselves.

In connection with this point the well-worn motto might be quoted, "If you are pleased with the library tell others, if not, tell the trustees," for we would be glad to consider suggestions. Constructive criticism is a great help in improving any institution.

It is intended to publish shortly a list of books recently added to the library. This list will be posted in conspicuous places and should increase interest in good reading.

The new building, soon to be occupied, will be the greatest factor in drawing people to the library. It is a fine, modern structure, splendidly located and easy of access, and will invite many more people than the present building. It should be a source of pride and inspiration to all citizens.

During the year much of our work has been in preparation of moving to new quarters. One activity as necessary to a library as the addition of new volumes is the rebinding or replacing of books worn out through much use. A good part of our appropriation has been spent for this purpose, and many

of the books recently added have been replacements of volumes which it was necessary to discard.

A larger number of magazines has been subscribed to than usual. The following magazines may be found on the reading tables at the library :

American Boy	Good Housekeeping
Youth's Companion	Woman's Home Companion
Country Gentleman	Saturday Evening Post
Harper's Magazine	Scientific American
Literary Digest	Popular Science Monthly
Mid-Week Pictorial	Red Cross Magazine
Ladies' Home Journal	National Geographic Magazine

During the past few months a new and complete catalogue of the library has been started and this work will be extended from time to time as opportunity presents. The trustees have hoped to be able to keep the library open a larger part of the time than heretofore, and if this is done the librarian will have even less time for this work. A special appropriation should be made to cover the cost of having this work done. The library will never be able to properly serve the need of students for a reference library, or the needs of people at large who desire a certain book or author, until it is catalogued. At present the majority of students in Saugus who wish to do reference work use the Lynn library, where a good catalogue is at their command. With this need supplied in Saugus, much time and money would be saved and an enlarged interest in our own institution would result.

At present the library is used largely by women and children. We wish to call the attention of the men to the fact that they, too, would find much to interest them. It is planned to install a telephone in the new building and with this in use, it will be possible for a person to ascertain whether or not the book he wishes is available. This will tend to save many useless steps.

The Branch Libraries have done well under the circumstances. They too will never serve the needs of Cliftondale and East Saugus until a catalogue is established. Persons in Cliftondale or East Saugus could then leave a call for a book in their respective branch libraries, and with a simple delivery service, say weekly or semi-weekly, the needs of these communities would be better served. As it stands now Cliftondale with the largest per cent of the population, and East Saugus with its quota, are not being served as they should.

These improvements, however, mean salaries and rents, they cannot be furnished without funds. If the people of Saugus deem the end worthy of the means, the service will be at their disposal.

The past year has seen a change in the person of librarian. Miss Emma Newhall, for over twenty years librarian of Saugus, has passed over the management of the library to Mrs. E. F. Nickerson of Bourne, Massachusetts.

We take this opportunity to express our appreciation of the splendid service rendered by Miss Newhall. With the smallest of financial returns for her work, she has given her time and effort without stint for the welfare of the library. In recognition of these services, the trustees have voted to confer upon Miss Newhall the honorary title of librarian emeritus.

The trustees have been handicapped in their work by the absence of two members of the board, Mr. Vernon Evans, now Lieut. Evans in service in France, and Mr. Russell Kennedy who recently entered military service.

One more point which the trustees would prefer to omit demands attention. This is the lack of care given by children to the books loaned them. Also there is lack of respect for the purpose of a reading room. Books are priceless things not to be handled carelessly. Most of the volumes now in circulation are in fair condition, and it is hoped parents and teachers will encourage the children to use care in handling them.

A reading room should be a place of quiet and not a play-room for thoughtless boys. We are sure that if the boys could visit the reading rooms of Lynn or Boston, and get the spirit of respect and order manifest there, they would want their library to be the same. The trustees and the librarian are doing their best to help these matters, but a few words from home and school would be of great assistance.

To the people of Saugus this report is respectfully submitted.

W. SANFORD FULL, *Secretary.*

For the Trustees.

## Cemetery Commission

### *To the Citizens of the Town of Saugus:*

With the advent of the year 1919 the Cemetery Commissioners feel that it may be of passing concern to the citizens of the town and others interested to record the fact that Riverside Cemetery is entering upon its 75th year, impressing us all with the truth of Bayard Taylor's line that "death is not rare, alas! nor burials few."

May we not "scan the eternal landscape of the past?" In 1844 the town bought a single acre of land from Salmon Snow for a new cemetery. Thus began the present burial ground. Since 1903, when reliable statistics began to be kept, approximately 1,500 interments have been made in it.

The original purchase, proving too small, the cemetery was enlarged again in 1858 by securing the adjoining property of Roswell Hitchings. In 1874 the two estates east were purchased of Henry Newhall and others, so as to further enlarge the cemetery substantially as it is at present.

The two things which the cemetery needs most now are a memorial chapel and a soldiers' and sailors' lot for the sons of Saugus who have made the supreme sacrifice in the recent war for democracy and liberty and whose remains may ultimately be taken from the soil of France to repose forever in the sacred soil of their home town. It is hoped that some generous person may provide the memorial chapel in due time, and the town should appropriate the money for the soldiers' and sailors' lot.

The appropriation last year for care and betterment was \$3,025, utilized as follows :

Care of lots and avenues	.	.	\$2,489 00	
Repairing wall	.	.	378 65	
Extending Cedar avenue	.	.	54 85	
Removing bank	.	.	52 50	
Carting gravel for avenues	.	.	50 00	
			<hr/>	\$3,025

During the year 110 interments have been made, and 16 lots sold, and \$515 deposited for the perpetual care of lots. Mowing receipts for the last year were \$1,350, an increase of \$206 over the preceding year.

The Superintendent, Charles E. Light, has rendered efficient service during the year, and we desire to commend him for it.

Respectfully submitted,

WILLIAM E. LUDDEN,  
BENJAMIN F. FULLERTON,  
HORACE H. ATHERTON, JR.,

*Cemetery Commissioners.*

ANNUAL REPORT  
OF THE  
SCHOOL COMMITTEE  
AND  
Superintendent of Schools  
OF THE  
TOWN OF SAUGUS

FOR THE YEAR ENDING DECEMBER 31, 1918

LYNN, MASS.  
FRANK S. WHITTEN, PRINTER  
1919

## Report of School Department

---

### *To the Citizens of the Town of Saugus:*

The year 1918 was a notable one in the History of Our Country and your Committee feel in view of the unusual conditions and unexpected problems that have come before them for solution, that the year 1918 will stand as a notable one in the History of the School Department.

The unusual situations that have arisen and the problems to be solved have been many and your Committee has spent much time and careful thought upon their solution, always having in mind the fact that the boys and girls in our schools to-day are the material out of which will grow the citizens of to-morrow.

While it could not be expected that your Committee could agree at all times and in regard to all details, yet it is gratifying to note that on the more important vital questions the Committee voted unanimously.

The severe cold weather, with the shortage of coal, the very first of the year, necessitated keeping the buildings closed longer than usual and in spite of great care there were many freezeups and consequent plumbers' bills.

The increased demand for labor, as well as a desire to serve their country, caused many teachers to seek leave of absence or to resign. Your Committee felt it necessary to stop granting leave of absence, and the Superintendent found it very difficult to get teachers at the salary paid.

Once more the Committee was obliged to choose a Superintendent. C. N. Flood resigning after serving one year. After the usual process of elimination, your Committee elected Mr. Jesse W. Lambert of Kennebunk, Maine. Mr. Lambert very quickly proved his worth and assisted greatly in solving many of our problems.

The resignation of Mr. Charles Smith, after two years of efficient service as Principal of our High School, came as a great surprise and again your Committee was confronted with the problem of selecting his successor. The scarcity of male teachers and the operation of the draft, rendered this a most difficult

problem. Mrs. Lucie Norris, who was acting Principal, was a candidate and was elected unanimously by the Committee.

The harmony and efficiency in evidence at the school would indicate that the Committee acted wisely.

Scarcely had school started in September, than we were forced to close for five weeks on account of the epidemic of influenza. Your Committee has endeavored to have the children make up as much of this lost time as possible so that the work for the year may be more nearly complete.

These are a few of the more difficult situations that the Committee has had confronting them in 1918.

### Teachers' Salaries

Early in the year it became evident that something must be done to retain our teachers, for the number of resignations became alarming and your Committee had already received a notice from the State Board of Education that in order to keep our High School in Class A, we must keep a larger number of experienced teachers on the staff. Each emergency was handled as it arose and your Committee was successful in retaining some of our best teachers.

The inability of the Superintendent to get teachers to come to Saugus for the salary paid and the realization that our teachers were underpaid caused the Committee to vote a general increase of salary dating from January 1st. This included raising the minimum in the grades to \$600, and the maximum to \$900, and the minimum at the High to \$700 with a maximum of not less than \$1,000. Heads of Departments, minimum at \$800, maximum \$1,100. Principals \$25 per room over regular salary. While we may still lose an occasional teacher to some of the surrounding towns, your Committee feels that we have taken a step in the right direction and that eventually our teachers will receive a salary that will enable us to have the best and keep them. Practically the entire increase in the School Budget for 1919, about \$10,000, is for teachers' salaries.

In view of the fact that all other employees of the town had from time to time received an increase in their wages, your Committee could not longer ignore the petitions of the School Janitors for an increase which was unanimously granted.

### New Buildings and Equipment

No building has been done in 1918, but the two room addition to the Lynnhurst School was completed in March and accepted

by the Town with appropriate exercises. This gives the Lynnhurst section of the Town, a building with modern equipment and heating plant and room enough to take care of the increase for some years to come.

For some time your Committee has felt the need of increased facilities in the Science Department at the High School. With a constantly increasing number of pupils taking Physics and Chemistry, it became necessary to add to the equipment in this Department. A new demonstrating table was furnished for use in the Biology and Physics classes, a new 12-foot Chemistry table, considerable equipment for the Physical Laboratory and supplies for the Chemical Laboratory. The Science Teacher has been given an assistant and it is the desire of the Committee to get this Department up to the proper standard.

### Victory Field

The Committee cannot emphasize the importance of an athletic field and playground too strongly. We hope some way may be found to obtain a Victory Field in commemoration of those who fought, and those who gave service to help win the war.

### Physical Culture

It is true that our High School is not well arranged at present for gymnasium work, nevertheless, much work can be planned for a form of exercise that will benefit all. The Committee believe the first steps have been taken and the Committee urges their rapid development, and asks the townspeople to approve of this important branch of our educational system.

### Domestic Science

The early history of our Domestic Science Department has been given. This year has brought to our attention fast development. The lunch counter is becoming congested at times, owing to the wholesome attractive lunch given at a small price. Dressmaking is available to the juniors and seniors of the High School.

The canning of two hundred cans of produce is another important step in the work. A letter from a pupil who won a prize in this work expresses the stimulus of this branch to her, and, therefore, it must be to others.

Our Red Cross work deserves to be mentioned; the sewing class giving time after school to sew for the Saugus Auxiliary, making children's garments and layettes, also that every school

is 100 per cent. Junior Red Cross membership, and that one hundred and seven students are senior members of the Red Cross. A word of appreciation should be given the teachers who carried their schools over the top.

The Committee suggests that an inventory be taken of the equipments of this department, and that a custodian be appointed for the same. Entire inventory to include also flags and other changeable equipments, as chairs, desks and seats, as it is necessary at some meetings to know at once where these furnishings are.

### Evening School

At various times your Committee has recommended the establishment of an evening school. Since the close of the war, a large number of pupils have been released from work, engaged in winning the war, and so your Committee feels that the time has arrived when the evening school shall become a reality to accommodate these pupils who left school to go to work. Accordingly, your Committee is planning to open an evening school in the fall of 1919 under the supervision and assistance of the University Extension Bureau of the State Board of Education.

### School Repairs

The Committee feels that it will be necessary to ask for an appropriation this year of \$8,073.

The buildings are getting older every year and for a number of seasons have received only such renovating as the small amounts which have been appropriated would permit. We now feel that owing to the increased number of pupils in some of the outlying schools that very radical changes are necessary, such as the increasing of the window area on the north and west sides of the rooms and screening of the light from the opposite side; also, changing from stoves to proper heating system, disregarding out-buildings and providing more modern conditions, also providing such buildings with water that have no supply.

There can be a saving to the Town if the present method of heating the Manual Training Building by steam from the Roby School is discontinued and a heater is provided for the Manual Training Building. Under present conditions in mild winter weather it is necessary to run both of the large boilers to heat the Roby and the Manual Training Building. If an appropriation is made for a smaller heater, as recommended, only one boiler will have to be run at the Roby School except during the coldest weather.

Re-grading the Roby School yard is absolutely necessary as the grade has washed down to from 5 to 8 inches around the foundation of this school and in some places exposes the rough rock. The Committee feels it will be necessary to put concrete footings around this building and re-grade; also take down the brick work of the back and front porches which have badly cracked and settled. The northwest side of the roof which has been leaking for a number of years is in such a state where reslating and new valley zincs are absolutely necessary.

The Emerson School yard needs regrading and the roof of the Cliftdale School needs repairing.

The draft of the chimney at the new High School is poor and after investigation as to the best method of improving conditions, the Committee recommends that the chimney be built up 15 feet. This will bring the top of the chimney above the roof of the old part of the High School and will increase the efficiency of the heating system.

The Committee recommends that a part of the old High School Hall be partitioned off and a skylight be built in the roof to give the proper light for a drawing room to accommodate those scholars taking up drawing.

The Mansfield School yard retaining wall has been gradually bulging out and for a number of years has been considered unsafe. The Committee now feels that the time has come when this wall must be rebuilt to safeguard the best interests of the town.

The Mansfield School has no fire escape, and as this building has only one staircase and the whole structure is of wood, the Committee recommends that a fire escape be placed on this building.

### North Saugus School

The request of the Government that no new building be undertaken during the war left the situation at North Saugus as it was. The town is paying \$100 yearly for rent of the Portable School, \$1,000 for transportation of pupils to Junior High, and has already paid an architect \$900 for plans for a building. It would seem as if most of the \$1,100 could be saved yearly if there was a new school at North Saugus. The Portable Building is hard to keep warm and in spite of the fact that there is a large heater, the teacher and pupils both suffer from the cold. The town already owns sufficient land so there is no question as to the site and as the town already owns a plan that with a few alterations

could be used, your Committee would feel gratified if steps could be taken to solve this problem this year.

### Conclusion

Your Committee would call the attention of the citizens to the reports of the Heads of Manual Training, Domestic Science and Commercial Departments, which show that these departments are doing splendid work.

The above report, together with those of the Superintendent and the Principal of the High School, give a very comprehensive idea of the year's work.

"Your Committee deeply regrets the fact that the report this year is not unanimous, but feel that as every opportunity has been given to make it so, we can simply say that we object to a minority or supplemental report which the committee as a whole has not seen nor heard, and regret that the situation exists that calls for this explanation."

Respectfully submitted,

ERNEST W. HOMAN, *Chairman.*  
LAWRENCE E. MORSE,  
ANNA C. PARKER,  
HENRY O. WESTENDARP.

## Report of Superintendent of Schools

---

### *To the School Committee of the Town of Saugus:*

Your Superintendent has the honor to submit his first report of the condition, progress and needs of the Schools of Saugus, the same being the twenty-sixth annual school report.

#### Teachers and School Efficiency

Many changes in our corps of teachers have become necessary during the past year. War activities, the opening of new fields of labor, and the tempting offers made by other school officials have resulted in a spirit of unrest, the loss of some teachers and the retaining of others only by substantial increases in salaries. Let it not be supposed, however, that any teacher on our force is now receiving too large a salary; this is positively not the case—indeed, further increases must be made, if we are to maintain the efficiency of our schools and thus do our duty by our boys and girls, the citizens of coming years and the hope of that democracy for which our gallant young men have fought, bled and died—an educated democracy, a democracy that shall be safe for the world.

We must not measure our schools in terms of dollars and cents nor judge them by the standards of the past. We are facing a new era and must prepare to meet the demands of coming days or suffer a distinct loss, compared with which a few extra hundreds of dollars would shrink into insignificance.

“Efficiency” should be our watchword. Let us hope that the tax payers will help us to stamp it indelibly upon the school system of Saugus.

#### Teachers and Pupils

A few words of commendation are due those who have done the most to advance the standards of our schools.

Generally speaking, teachers and pupils have worked in harmony. There have been but few cases of serious friction, and we are happy to say, fewer cases of corporal punishment.

We believe that our teaching force is an efficient one and well worthy of the support of all concerned. Irregularity of attendance and a persistent tardiness on the part of some pupils is a very bad feature and should be corrected. These boys and girls not only defeat their own chances of promotion, but retard the progress of their respective classes. The truant can be dealt with, but the individual who stays out for a session or two each week, or comes in late because of some little inconvenience, ought not to require the services of an attendance officer. These cases need co-operation of parents and school officials. Permit me to urge that parents see that their children make a business of attending school.

### High School

The work of our High School is going on smoothly although retarded somewhat by irregularity of attendance due largely to the prevailing epidemic.

We have been working to systematize the work by establishing heads of various departments who shall be held responsible for a uniformity in the work of the different divisions. We have also developed the departmental idea in the Junior High and shall next study more carefully the changes necessary in our courses of study. In this respect there is a chance for improvement.

Permit me to commend the work of principal and teachers.

Your attention is called to the report of the Principal, Mrs. Norris.

### Sad Losses

It grieves us to record the loss by death of a number of people intimately connected with our schools. Miss Sarah A. Biffin for a period of years a most efficient and highly respected teacher, Miss Florence Furbish who, during her comparatively short term of service secured and held the entire confidence and respect of pupils, parents and teachers, and Dr. Thomas T. Perkins who for a small salary so willingly and efficiently served as one of our medical inspectors.

We recall also other grievous losses—members of our schools in various sections of the town. We do not wish to dwell upon the dark days of our experience but would hold in respectful memory these faithful co-workers.

### Manual Training

Excellent work is being done in this department. The interest is very marked, the teachers are very willing and efficient and the equipment, while not all that it might be, is by no means poor.

This is a department that should be generously supported and extended. Your attention is respectfully called to the report of our director, Mr. Corthell.

### Music and Drawing

The progress in these subjects is satisfactory. Supervisors and teachers have worked in harmony and good results have followed.

Permit me to say, however, that the work in mechanical drawing now being so efficiently carried on in our High School is of sufficient importance and magnitude to claim the full time and energy of one teacher. The supervision of grade work should therefore, not be placed upon her shoulders.

Your attention is respectfully called to the reports of the supervisors, Miss Carr and Miss Richardson.

### Domestic Science

As a special report is to be made by our efficient director very little need be said here.

I wish, however to speak of the excellent work being done by teachers and pupils. This department deserves our hearty support.

Your attention is respectfully called to the report of the director Miss Partridge.

### Commercial Department

The work of this department has been handicapped somewhat by lack of teachers but is now going smoothly. This is a very important line of work and should be promoted in every way possible.

Your attention is respectfully called to the report of its head, Miss Powers.

### School Gardens

This feature of our school work has been carried on in a highly satisfactory manner by Mr. Ellery Metcalf, our agricultural instructor. The work has been approved by the State and

reimbursement granted. I wish to go on record as being strongly in favor of such activities.

It gives me pleasure to call your attention to Mr. Metcalf's report.

### Parent-Teachers' Associations

These associations are particularly helpful in Saugus, governed, as they seem to be, by a spirit of co-operation and helpfulness. I have had the privilege of attending several meetings and am convinced that every school or school section would be greatly benefited by an organization actuated by the cheerful, wholesome, helpful spirit shown at these meetings. Children, however honest, see things from the child's point of view and thus unintentionally misrepresent school matters. These troubles are given their true proportions by parents who are acquainted with the teachers, their work and the many cares of the schoolroom.

As Superintendent of Schools, permit me to thank these organizations for their friendly spirit and valuable aid.

### Penmanship

This branch of work has been given its share of attention and good progress is being made. We intended to employ a supervisor this year but lack of funds and the scarcity of experienced candidates have defeated our plans. A supervisor should be employed in order that a uniform system may be followed.

Our regular teachers are doing excellent work but we can hardly expect them all to be expert along this line or to have a complete mastery of the principles involved. We hope to have a competent supervisor next year.

### The Physical Welfare of the Child

The Town of Saugus is doing so much for her schools, that I hesitate to call attention to needs still existing that seem as real as any thus far met. It is a foregone conclusion that educational progress is promoted very largely by physical health and comfort. Several of our schoolhouses are sadly lacking in those conditions and appointments necessary to meet a reasonable demand.

First, as regards light: The standard ratio of glass area to floor space is 20 per cent and light should be admitted on the left or from the back of the pupils.

In the Oaklandvale School, the ratio of glass area to floor space is less than 10 per cent and half of that is on the wrong side.

In the Armitage School rooms, the ratio is about 15 per cent but one-third of it is on the wrong side.

No child can get the most out of his days work while subjected to eye strain.

Now as to toilets: Outside buildings compel children to be exposed to all sorts of weather and in case of small children, especially, not only is the comfort but the health very seriously jeopardized. We have a right to compel children to attend school. Let us not forget that the children also have rights. Let us grant those rights by giving them schoolrooms that are well heated, well lighted and well ventilated.

In the mind of your Superintendent, the Oaklandvale School should be provided with chemical closets in the room adjoining the class room, a sanitary room furnace or jacketed stove in the coldest corner of the class room and windows enough placed at the left of pupils to admit a reasonable amount of light.

At the Armitage School, flush closets should be installed and the lighting improved as at the Oaklandvale.

This will require money, to be sure, but the expense will be more than justified by more regular attendance, far better conditions for study, a greater degree of health and comfort, and as a direct result, a saving of time on the part of some pupils with greater progress for all.

The appropriation for repairs should be liberal.

The North Saugus situation is a serious one. With respect to the main building and out-houses the same deplorable conditions as those mentioned above are readily seen.

The smaller building where the 3rd and 4th grades are housed is totally unfit for a winter schoolroom in this climate. The floor is very cold, a condition that not only causes serious discomfort but endangers the health of both pupils and teacher.

We hoped to make the room habitable by banking, but the floor is still so cold that pupils might well envy the boy who "stood on the burning deck."

The only encouraging thought connected with this building comes from the fact that Saugus does not own it, it is portable and can therefore be returned to its owners.

The whole situation can be summed up in two statements.

1. Pupils of North Saugus and vicinity are very improperly housed.

2. The proper solution of the problem can come only by the erection of a new school building.

### Physical Training

The subject of physical education is now claiming the attention of our leading educators and it really seems worthy of a place on our school program. The late war has brought to our attention, as never before, the physical unfitness of a large proportion of our youth and we can no longer be blind to the necessity for some means by which our boys and girls may be made physically, as well as mentally and morally, fit to fight life's battles more strongly and successfully. We may have athletics in the form of baseball, football etc., but these sports while excellent so far as they go, do not include the needy, but rather, those who need physical training least. Physical training, to be effective must have for its aim, not the winning of games so much as the formation of an erect well developed disease-resisting body.

This condition can be brought about only by a regular system of physical exercises for every boy and girl, the same to be under the immediate supervision of one who can recognize physical deficiencies before they become too marked and can prescribe such sets of exercises as will best correct those deficiencies.

### Certificates Issued in 1918

Five Hundred and thirty-six Educational Certificates (literate)

Two hundred and ninety-two Employment Certificates.

The Educational certificates are issued to persons from sixteen to twenty-one years of age.

The Employment certificates are issued to persons from fourteen to sixteen years of age.

### Recommendations

Your attention is called to the following needs :

1. Fly screens. Keep the children in school and the flies out.
2. An athletic field.
3. Special attention to school grounds.
4. A school library in every building.
5. Better sanitary conditions in and around outlying school buildings.

6. Admission of children at the age of five and one-half years, but no mid-year admissions to first grade.
7. Physical training, under competent supervision, for every pupil.
8. Graduation for the Junior High School.

### Conclusion

In spite of the many adverse conditions arising from frequent loss of teachers and the inroads of the epidemic, something has been accomplished during the past few months.

Whatever of progress has been attained is due very largely to the cheerful good-will and co-operation of our teachers, the whole-hearted backing of the School Committee and the encouraging attitude of those citizens of Saugus that it has been my good fortune to meet.

These evidences of good fellowship are appreciated.

Respectfully submitted,

JESSE W. LAMBERT,

*Superintendent of Schools.*

SAUGUS, January 15, 1918.

### Report of Medical Inspectors

#### *To the Superintendent of Schools:*

My report as School Physician is not as complete as might be desirable, as I have not been able to give the schools the time that is necessary to make a careful and systematic examination of all the pupils in all the schools. I have seen most of the pupils either in school or at home and have been able to advise the parents and pupils of any remedial abnormal conditions. I have found eighteen cases of adenoids needing attention and twenty cases of diseased tonsils. There have been very few contagious cases in the schools this year.

I have seen two cases of impetigo contagiosa, two of scabies and only one case of pediculosis. A very marked improvement is noticeable in the care of the pupils' teeth. I have found at least fifty per cent less carious teeth than last year and the teeth show more continuous care.

This very vital matter seems to be much better recognized than formerly. The sanitary conditions at the Roby School and

the High School are very good but there is much to be desired at the North Saugus and Oaklandvale.

The usual careful examination of the pupils in the schools is is being done now and will be finished in about two weeks.

Very respectfully,

MYRON H. DAVIS.

*To Mr. Jesse W. Lambert, Superintendent of Schools,  
Saugus, Mass.:*

DEAR SIR,—I respectfully submit my Annual Report as School Physician for the year ending December 31, 1918. I have carefully examined all the pupils in the following schools. Emerson, Ballard, Mansfield and Lynnhurst, and report the following ailments.

Five cases adenoids, 6 cases cenical glands enlarged, 5 cases diphtheria, 4 cases eczema, 3 cases furuncle, 1 case hip disease, 7 cases impetigo contagiosa, 20 cases influenza, 3 cases nasal catarrh, 23 cases pediculosis, 27 cases teeth decayed, 12 cases tonsils enlarged, 2 cases ring worm, 4 cases whooping cough, and 6 cases wears glasses.

Very respectfully,

GEORGE W. GALE, M. D.

### Report of Principal of High School

*Superintendent Lambert:*

In submitting to you my report as principal of the Saugus High School, I am conscious of two things: First, that it is an innovation in the local school history to have a woman principal; second, the year is yet young, my term of service short and consequently my report should partake of the same nature.

### Policy

Since a large per cent of our pupils leave school to take up active work, our policy is to educate—draw out—the boy and the girl, make them more efficient and skilled workmen, folk who shall appreciate good things—such as music, art and literature—in their leisure, and render not their “bit” but their “best” service to the town and state because of their High School training.

With this in mind, stress is put on the *fundamentals* in the intellectual, physical and moral being. With a fine equipment, and a strong and permanent corps of teachers, this is possible. Right here I desire to state the corps of teachers in the Saugus High School is as strong, if not stronger than is found in many larger schools, and to them I am personally indebted for their loyal support and co-operation. With the new science equipment, the present plant can now be favorably compared with other schools.

Accurate, thorough, honest work counts, no matter whether in teacher, pupil or workman, therefore, this year, emphasis is being placed on accuracy—not how much ground can be covered in a certain subject, but how well the facts are fixed in the pupil's mind.

The aim is to stimulate activity. The prime factor to enter into the life of the High School pupil is to teach him to think; we hope to turn out boys and girls who can think for themselves; this will take time, of course; some think more slowly than others; some think through their fingers, but all *can* think, and if this is encouraged, originality of thought and purpose in life will be developed.

To bring about this ability to think, it is necessary that there be *study* of the subjects, not mere reading of words. Therefore, we have planned for two study periods each day in the home rooms for all pupils, from 8.15 to 9.00 and from 1.40 to 2.10. For the average pupil at least one hour's study at home is *absolutely* necessary for efficient High School work. The attitude of the pupils toward study has improved this year, but there are too many yet who fail to realize the importance of study in school and at home.

The enrollment of the High School is not as large as last year, since the high cost of living made it imperative for many of the pupils to enter into the industrial life, and the exigencies of the war forced many to take the place of the men called into service.

The leakage since the opening of this school year was inevitable; the epidemic of influenza; many, as usual, were just waiting till they were sixteen; others were needed to help fill the family exchequer and so left to become wage earners; while a large proportion moved from town because of the increased fare in trolley lines.

4 Boys and 1 girl died from influenza.

19 Boys and 14 girls went to work. Junior, 15. Senior, 18.

18 Boys and 18 girls left town. Junior, 25. Senior, 11.  
Total, 41 boys and 33 girls.

To make the work of the Junior and Senior High School correlate, courses of study under the various departments have been arranged which shall emphasize the *essentials* and not overlap. Among other things, attention is directed to *oral* speech; many of our boys and girls have done much writing but have not been taught to think clearly and logically and express themselves forcibly on their feet; so, in the English department (which includes all the members) care is being exercised in oral work based on the pupils' general knowledge, supplemented by outside reading, especially in the *Literary Digest*. By the way, it surely will add to the tone of the town, when over one hundred copies of this periodical are subscribed for by our boys and girls and find their way weekly into the homes of our town there to be read by the family. Our school library is small; the use of it with the town library should supplement the text books.

Outside activities have appealed to the pupils; the purchase of War and Thrift Stamps; the enrollment of 108 pupils as members of the adult Red Cross and over 500 in the Junior Red Cross. Some of the girls are planning to sew one hour each week for this great organization; also, 104 copies of the *Literary Digest* taken each week in the Senior High School.

A Boys' Glee Club of 24 has been formed which meets for one-half hour each Tuesday, under the direction of Miss Carr. 170 of the Senior High School are in the High School Chorus.

For other departments see reports of Commercial, Domestic Science and Manual Arts.

All pupils take English. In the 7th grade, all have reading, spelling, penmanship, music, drawing and geography. The same studies with substitution of history for geography, prevail in the 8th grade.

There are 67 pupils taking Latin; 2 German; 142 Science; 289 French—118 in the Junior High and 171 in the Senior High; 62 Algebra; 75 Geometry; 8 Mathematics Review; 16 Business Arithmetic; a total of 161 in Mathematics in the Senior High. 121 take Freehand or Mechanical Drawing in the Senior High.

The length of the school day is 5 hours, 25 minutes, with an added 35 minutes for lunch, only 40 minutes longer than the average school day in Massachusetts last year.

Youngest pupil in the Junior High, 10 years.

Youngest pupil in the Senior High, 12 years, 9 months.

Oldest pupil in the Junior High, 16 years, 5 months.

Oldest pupil in the Senior High, 18 years, 8 months.

The average age of pupils in the Junior High is 12 years, 7 months.

The average age of pupils in the Senior High is 15 years, 6 months.

The attitude of the pupils has been for the most part good—they are responsive to suggestions and amenable to discipline. They are learning to realize that in school as well as in military service and business, there must be mutual respect of the governed and governor. Emphasis is placed on good conduct, for “conduct is three-fourths of life;” “conduct points to destiny;” therefore we believe the good pupil makes a good citizen.

### A Few Problems

1. Regular visitation of a school physician and district nurse would do much to lessen physical weakness and put the school and town in the line of disease prevention.

2. A truant officer to give his whole time in looking after the tardy and absent pupils would diminish the number of truancy cases.

3. A playground with equipment and a competent director for the pupils at intermission is needed. Youth is youth and must be fed on the food on which youth thrives. All study and no play “makes Jack a dull boy.”

4. *Failure of parents to realize the importance of regular attendance and punctuality.* It is due every boy and girl that he should be in school at the only period of his life when he has a chance. In school when school is in session; in work and play when not in school. A natural consequence of non-attendance in school of children until 18 years of age is poverty and non-employment later in life, and what is worse a discontented mind.

5. Correlation of outside activities with school, so that the pupils may *desire* to remain in school after they are 16, so we suggest a three-fold practical course—

Commercial

General

Manual and Industrial Arts

with credit for apprentice work done out of school hours, in trades, printing, carpentering, agriculture, office work. In this

connection, a trial of promotion by *subjects* may increase interest and application in the school work.

In school as in the world, pupils may be dealt with according to what they are and not what *we* think they ought to be—and the great art of life is to find out *what they are* and turn their natural talents into legitimate channels—this is the task of the true teacher, and it is this line of work which appeals to me personally, and my hope is that I may lead into courage, success, knowledge, skill and ideals the pupils entrusted to my care.

Before closing this report, I desire to express, through you, my appreciation of all those who have co-operated in the High School work; the janitors, the teachers, the parents and the school committee.

Thanking you heartily for your patience with a new Principal in addition to all your other tasks, I remain,

Respectfully submitted,

LUCIE M. NORRIS.

January, 1919.

### Household Arts Report

JANUARY 10, 1919.

*To Mrs. Norris, Principal of the Saugus High School:*

The work of the Household Arts Department of the Saugus High School for the school year, 1918-1919, commenced September 6, 1918. The enrollment at the present time is as follows:

Elementary Sewing, Grades 7-8	.	.	145
Dressmaking	.	.	17
Cooking — Grades, 9-10	.	.	92

The sewing in the seventh grade consists, first of learning the fundamental stitches which are then applied to a sewing bag. Next an article of underwear is made and finally a bungalow apron. Something of textiles is also learned as well as patching and darning. The work in this grade is done by hand. The classes meet for an hour and a half once a week. In the eighth grade the stitches are reviewed; the girls are taught to use the machine. The garments made in this grade are a princess slip, a cooking cap and apron, a middy blouse or smock and if time allows, a dress.

The dressmaking course was introduced this year and is offered to the Junior girls of the Senior High School. Red Cross work is being done by all of the classes and by groups working in the afternoon after school.

The classes in cooking prepare the dishes served at the lunch counter. The materials used are purchased with the receipts. About fifty lunches have been served since September 6, '18 and between one hundred and two hundred people served daily. An attempt is made to serve nourishing and wholesome food at a minimum price, e. g.:

Cocoa . . .	\$ 04	Sandwiches . . .	\$ 4-5
Soup . . .	04	Muffin and cakes . . .	02
Warm dish . . .	05	Dessert . . . . .	05

The total receipts from September 6, 1918 to January 1, 1919 . . . . .	\$339 80
The total expenditures . . . . .	321 00
Balance . . . . .	<u>\$18 40</u>

Respectfully submitted,

ALICE M. PARTRIDGE.

### Report of Head of Commercial Department

*Mrs. Lucie M. Norris, Principal High School:*

DEAR MRS. NORRIS,—As Head of the Commercial Department, it is with pleasure that I submit my first report to you.

There are at present 212 in the Senior High enrolled in the Commercial Department. According to subjects, the enrollment is:

Bookkeeping . . .	173
Typewriting . . .	54
Shorthand . . . .	51
Business Arithmetic . . .	16
Commercial Law . . .	7

All pupils in the Junior High are required to take Penmanship, the present enrollment being 320.

Bookkeeping is offered the four years. It may be begun in either the Freshman or Sophomore year.

Much of the time of the first year classes is devoted to the basic principles of Arithmetic—striving for speed with accuracy. The

study of the fundamentals of debt and credit, together with their application in enteries in the various books, (Journal, Cash Book, Sales Journal, Purchases Journal and Ledger) consumes the latter part of the year's work.

The second year classes are given a thorough review of the operations and practices of the books of original entry and the Ledger. Much time is allowed for the study of drafts, particular emphasis being placed on the parties, the uses, and the entries. Statements, the classification of accounts, the closing of books, and the discounting of notes are taken up in detail.

In the third year classes, we go much deeper into the classification of accounts and much time is spent on the preparation of Profit and Loss and Assets and Liability statements. Special column Journals and Cash Books are studied in this year; also the value, uses and advantages of Subsidiary Ledgers.

There is no fourth year class because of the very small number electing the course.

The work in Bookkeeping is planned with a view to the needs of business, so that pupils going into offices from High School will be able to meet the requirements. The work could be made much more practical, however, if bookkeeping desks and business offices (wholesale and retail offices and a bank) were installed.

The whole of the first year might very profitably be spent on Penmanship and Rapid Calculation, leaving Bookkeeping to be started in the second year. I would recommend that this change be made another year.

Shorthand and Typewriting are offered the last two years. Typewriting may be elected without Shorthand.

The pupils of the advanced Shorthand and Typewriting classes have practical work to do, one person being assigned to the office for a period of two weeks. During our enforced vacation, several of the classes did typewriting for Mr. Lambert. One pupil, also, has done considerable work in the Auditor's office. For the Bookkeeping classes it is quite necessary that each pupil have a copy of the exercise, and since we are not using a text, there is much mimeograph work to be done which is assigned to members of the advanced shorthand class.

Both accuracy and speed tests are given in typewriting, impressing upon the pupils that *there is no real speed without accuracy.*

The aim in the beginning classes in Shorthand and Typewrit-

ing is for accuracy, no typewriting paper being accepted which contains an error. Speed can be worked up only after accuracy has been acquired.

The Typewriting room is open from 8.15 until 2.15, with the exception of one period, thus giving pupils an opportunity to practice during spare periods if they desire. The work in typewriting is entirely individual.

Business Arithmetic is offered to Juniors, and Commercial Law, to Seniors. Commercial Law continues for one-half the year, Business English being offered the latter half.

The loyal support that you have given me has been of great assistance, and I appreciate, too, the help of Mr. Lambert and of my co-workers.

Respectfully,

THENICE POWERS.

### Report of Supervisor of Art

*Mr. J. W. Lambert, Superintendent of Schools, Saugus, Mass.:*

DEAR SIR,—Present day conditions demand a radical change in drawing courses throughout the country. There is a need for something more practical than the old fashioned conception of drawing—of making pretty pictures and ornaments to amuse the child and keep him busy. A small percentage of the average school children have exceptional talent for actual drawing. Therefore, an effort is being made to reorganize drawing courses in general and give the child the correct start which will enable him to discriminate between the beautiful and the ugly in the industrial products of the day. Thus, later, he may be able to demand better goods from our shops and factories, or if especially talented, to create them.

The art work for the grade school has been outlined, illustrated and explained to the teachers at meetings held after school hours, once in two months. Their work during the fall has been in the form of a Poster Contest to stimulate the interest in War Saving Stamps and Thrift Stamps as well as produce well designed and well executed Poster effects. This has been taught entirely by the teachers, as the Supervisor's entire work is occupied at the High School.

A day and a half is given to the nine Junior High classes and three and a half days to the ten Senior High classes which have been formed since the regular school program was arranged and

running. Therefore, the members of these Senior High classes meet whenever there is a period free from other subjects, making it necessary to have several different groups working in the same room during a period. Art work is required in the Ninth year if there is a period free for it and elective in the upper classes.

Some changes, already suggested in the equipment of this department would make the work much easier for both student and instructor.

I thank all those who have helped me in getting my work successfully started this year.

Respectfully submitted,

ETHEL LOUISE RICHARDSON,

*Supervisor of Art.*

### Report of Supervisor of Music

*To Mr. J. W. Lambert, Superintendent of Schools:*

The aim of music education in our public schools is to develop in the pupil an intelligent appreciation and enjoyment of good music, a musical and expressive voice, the ability to read music at sight, and the power of musical interpretation.

Why all this? Are these essentials in education? During the world conflict just ended, all non-essentials were set off for elimination. Was music eliminated? Of course it was not. Even in so great a time of need the United States government appropriated thousands upon thousands of dollars to provide music for its soldiers, simply because the morale of the troops could not be maintained without it. It is impossible to refrain at this point from quoting an excerpt from an address by Thomas A. Edison, whom we know as one of the greatest men of all ages, a man whose fame reaches around the world to all countries touched by civilization.

"You ask me if music is a human essential. To the Eskimo, or South Sea Islander, no. To the American, Frenchman, Englishman, Italian, yes. Mere existence demands nothing but food, drink, clothing and shelter. But when you attempt to raise existence to a higher plane, you have to nourish the brain as well as the body. I don't think there is any sane person who would say that books are unessential to the maintenance of our civilization in America. Yet, after its school days, probably less than one-fourth of our population reads with serious purpose. Music is more essential than literature, for the very

simple reason that music is capable of releasing in practically every human mind enlightening and ennobling thoughts that literature evokes in only the most erudite minds.

Music, next to religion, is the mind's greatest solace, and also its greatest inspiration. The history of the world shows that lofty aspirations find vent in music, and that music, in turn, helps to inspire such aspirations in others. Military men agree that music is essential to soldiers both in camp and in action. The Marseillaise is worth a million men to France. Nor is music less essential to those the soldiers leave behind them. The man who disparages music as a luxury and non-essential is doing the nation an injury."

Henry Van Dyke says: "I am a strong believer in the value of music in education." The Greeks, a wise folk, made it one of the elements of their training and discipline. The four liberal arts which composed the quadrivium of Pythagoras were geometry, astronomy, arithmetic and music. To this was added the trivium composed of grammar, logic and rhetoric. Plato said: "Musical training is a more potent instrument than any other, because rhythm and harmony find their way into the secret places of the soul, on which they mightly fasten, imparting grace and making the soul graceful of him who is rightly educated."

Surely a heavy responsibility devolves upon the shoulders of those to whom the accomplishment of so important a mission is entrusted. And right here I want to express my earnest and deep appreciation of the hearty and loyal co-operation I have been constantly receiving from all the teachers. The work in music in all the schools is being carried out faithfully and as well as the exigencies of the year allow. We are not trying to do any stunts but rather, solid, conscientious work. For there is no astonishing way of doing astonishing things. All astonishing things are done with ordinary materials. And genius is one-tenth inspiration and nine-tenths perspiration. By the way, I might say, that while I lay no claim to being a genius, the nine-tenths of perspiration is abundantly acquired, exclusive of the teaching, just in journeying over my regular weekly itinerary for all the schools of the town of Saugus.

But to come back to the way we are doing things. The system being taught is the essence of the aggregate of two splendid systems of public school music: the Cole system and the Baldwin system. But any system is valueless without hard work; for there is no elevator running up the hill of success. And so

we are striving to climb step by step, looking always for a firm foothold before taking the next step, so that we may not some day suddenly slip to the bottom and have to begin all over again. Especially in the grade schools where the technical part of musical training must be chiefly done, accuracy and the thorough understanding of ground covered, in short, the general good quality of the work is considered first; and I am glad to say is not greatly impairing the amount of work covered, but will be seen to aid it more and more as time goes on.

Except in the High School chorus where a number of pupils in one class and limited time make it impossible, each child—and there are approximately twelve hundred of them whose classes I visit every week—each child receives some individual attention. No child is ever slighted. There is great opportunity for all pupils and still greater for all who try.

Respectfully submitted,

E. LUCILE CARR

*Supervisor of Music.*

January 20, 1919.

### Report of Supervisor of Manual Training

*To the Superintendent of Schools and members of the Board of Education:*

I herewith have the honor of presenting you my report for the year just closed.

This department of our school opened in conjunction with the other schools, with an enrollment of 141 pupils in the Senior and 195 in the Junior High.

The pupils of the Junior High are divided into nine divisions, five in the seventh year, and four in the eighth, the seventh grade classes take up such models as the pencil sharpener, pencil holders, broom holder, spool holder and others as time permits.

Exercises involved in these models are the use of the knife, saw, plain, chisel and spoke shave.

The eight year classes take up a few models such as the tie rack, glove box, bread-board, magazine holder, plant stand, blotter pad, shelf, pencil tray and serving tray. The exercises are the repeated exercises of the Seventh, in addition to these are the, butt joints, half lap joint, tongue and groove and mibic joint. In this class applied design is taught.

This room is equipped with twenty sloyd benches, with tools

sufficient to carry on the work. Miss Lee who is in charge of this room is doing excellent work with these pupils.

The pupils of the Senior High are divided into two classes of three divisions each, the first year pupils come twice each week, and the second year classes come three times each week.

The work taken up in these classes is bench work and wood turning, inlay work, chip carving, applied design, sharpening and taking care of the tools.

As far as possible I try to bring out the originality in the pupils and make them think for themselves, and I find they are fast developing along these lines. It is certainly gratifying to me to note the interest taken in these classes.

We have a light, airy room equipped with 16 benches, one large carpenter's bench, 6 Reed speed lathes, one circular saw, one mitre saw, rabbit plane, also novelty saw and grinder, besides bench tools sufficient to carry on the work. I consider the school as well equipped as any school of its size in the State; however, this does not mean that we should not advance. I should recommend one or two small engine lathes, one upright drill, two or three machinist vises. With this equipment the older boys of the High School would have a chance to learn something of shop life, and when they did enter a shop they would be of more use to themselves and to their employer.

An evening school should be started for the older boys of the High School who are unable to take the course at any other time, the boys who are out of school would also have a chance to attend these classes. If this were run on a trade school plan the Smith Hughes bill and the state would take care of most of the expenses. So far we haven't done much repair work for the schools, but we have just started to make some cupboards, and to put up some shelves and the small jobs around the High School, much of this work can be taken care of through this department and it is good experience for the boys.

Two linen chests for the Junior Red Caoss are under construction.

We plan to have an exhibit of our work at the close of the school year.

At this time I wish to thank the members of the Board of Education for the interest you have taken in this department, and the confidence you have in me as an instructor. I also appreciate the co-operation of the Superintendent and the Principal of the High School.

Harmony is the success of all school systems.

Respectfully,

NAPOLEON B. CORTHELL,

*Supervisor of Manual Training.*

### Report of Agricultural Instructor

*Mr. Jessie W. Lambert, Superintendent of Schools, Saugus, Mass. :*

DEAR SIR,— I herewith submit a report of the Agricultural Evening Class Instruction and Supervision organized as a Department of the Saugus High School during the period covered from March 18, 1918 to October 14, 1918.

Enrollment and classification of persons over sixteen years of age taught and supervised :

Heads of families, 81.

Unemployed (retired persons, school boys over 16, etc.) 6 persons.

Employed in non-agricultural occupations, 70 persons.

Employed in agricultural occupation, 16 persons.

Total number of different persons, 92.

Total number of acres cultivated, 139.

Supervisory visits made by instructor, 800 visits.

Besides supervising delivery of 20 tons commercial fertilizer, 2,000 pounds, nitrate of soda, 600 bushels seed potatoes, 33 tons ground limestone, one car horse manure, and 115 young pigs. Also conducted a group study class one evening a week part of the time.

### Returns on Productivity

Value of products sold for cash or exchanged, \$18,795.68.

Value of products used or stored for home, \$8,358.89.

Total, \$27,153.57.

### Cost of Instruction and Supervision

Number of instructors or supervisors, one.

Amount paid in salary, \$575 (to August 31).

Amount paid in salary entire period, \$727.08.

Amount of State Aid claims \$484.72.

The above itemized report is a duplicate of the one required by and duly sent to the Massachusetts State Board of Education.

As the state refund is based only on work done with adults over 16 years of age, the above itemized report does not

record work done with Junior State Agricultural Club Members. I am pleased to state that Saugus compares favorably with other towns and cities in Essex county regarding the response on the part of pupils to the government appeal for increased production and conservation of food by school pupils. There were in Saugus this year approximately twenty Junior State Market Garden Club Members, thirty-five Junior Canning Club Girls and fifteen Junior Pig Club Members.

A conservative estimate shows that the Pig Club Members produced 4,000 lbs of pork, live weight. Some of the members cared for two and three hogs each.

The Market Garden Club Members produced \$5.00 worth of vegetables. The Canning Club Girls canned over 1,000 quarts of fruit and vegetables.

All assistance was given in the Canning Club work by the Domestic Science teachers at the High School and by women who carried on the food conservation activities in the town.

Constant co-operation was given the Junior Club work by the County Club Leaders, Mr. E. R. Howard and Miss Gladys Stratton. Other county and State agricultural authorities who co-operated in the activities in Saugus, were George L. Farley, State Supervisor of the Junior Agricultural Clubs who spoke to about 1,500 Saugus School pupils and gave a stereopticon lecture to the pupils and parents; W. C. Kennedy, Instructor of Animal Husbandry, Essex County Agricultural School, who gave a pig judging demonstration to Saugus Pig Club Members at the farm of Charles Stillings; Ralph H. Gaskill, County Agricultural Agent, and Robert Mitchell, Market Garden Instructor, who gave demonstration lectures to the Junior Market Garden Club Members.

Thanks to the kindness of the school committee in donating the use of the school barge and to other interested persons who furnished automobile transportation many Saugus Junior Club members were given opportunity to attend the Junior Agricultural Club Field Day at the Essex County Agricultural School.

I should consider my report very incomplete if I did not commend what I consider the difficult and excellent work of the Saugus Food Production Committee, and the able painstaking co-operation of the Saugus Town Treasurer and Clerk. My association with these officers has been pleasant in every way. I believe all will agree that the committee's patriotic service in securing the food production supplies recorded under No. 7 of my itemized report was most practical; and difficult also, when

it is remembered that the committee had absolutely no appropriated funds to do business with.

Conferences with the Agricultural Advisory Committee regarding proposed operations in my department were very beneficial. The practical farmers who comprise this committee gave sound advice and practical support to all important undertakings. I regret that the vegetable and pig exhibit which was carefully planned with the support of the Advisory Committee could not be carried to completion.

In concluding my report I will offer the following summary of the agricultural situation in Saugus.

1. There are in Saugus approximately twenty-five farmers who own and subsist by the various branches of agricultural business in which they are individually engaged.

2. There are many more than 100 non-agriculturally employed heads of families who operate a home garden, keep poultry, bees, a hog or two and produce some fruit for pleasure and economy of living.

3. There are many more than 100 housekeepers in town who are interested in the problem of conservation of food, clothing and the proper and economical feeding and maintenance of good health in their families.

4. There are a large number of school pupils who have a natural liking for the cultivation of the soil and other branches of agriculture, who appreciate and benefit by instruction and supervision.

The situation enumerated above exists in practically every community throughout the United States. The grand total of citizens seriously interested in agricultural pursuits is very great. The need and demand on the part of these citizens for a knowledge of the best methods of efficient economical agricultural production and conservation is very great. In an attempt to meet this demand, and thereby build up a strong thrifty national agriculture which will assure a sufficient production and an efficient distribution and conservation of food to keep starvation out of the world, the Federal, State, and County government has provided agricultural departments, colleges, county schools, county agricultural agents, farm bureaus, college extension services etc.

Experience has taught that in order for a community to get the satisfactory assistance and co-operation of this great force of agricultural experts there must be a community leader or supervisor stationed in each city or town to act as interlocutor or con-

necting link between the community's agricultural interests and the outside experts.

This need has been so apparent that the federal and state governments agree to refund two-thirds of the expense incurred by towns or cities who install satisfactory agricultural departments in their High Schools with an instructor who serves the school and acts as community leader the year round.

The average yearly expense of these agricultural departments for equipment and instructor after the two-thirds refund has been granted is I believe five or six hundred dollars.

In view of the fact that the Agent of the State Board of Education favors the establishment in Saugus of at least a two year agricultural high school course after which students may complete their agricultural study at the Essex County Agricultural High School, I would recommend that your committee carefully consider the situation and act upon the question of permanently installing such a department.

Respectfully submitted,

ELLERY E. METCALF,

*Agricultural Instructor.*

December 26, 1918.

## SCHOOL STATISTICS

Number of public day schools based on the single class room as the unit . . . . .	64
Number of public school buildings in use . . . . .	14
Number of persons between five and fourteen years of age in town the first of September, 937 males; 781 females . . . . .	1,718
Number of persons between seven and sixteen years of age in town the first of September, 951 males; 837 females . . . . .	1,788
Number of persons between fourteen and sixteen years of age in town the first of September, 150 males; 170 females . . . . .	320
Number of persons between five and seven years of age in town the first of September, 208 males; 184 females . . . . .	392
Number of different pupils of all ages in the public schools during the school year ending June, 1918, High, 751; Grades, 1,767 . . . . .	2,518
Number attending within the school year between five and seven years of age, 171 boys; 161 girls . . . . .	332
Number given employment certificates between fourteen and sixteen years of age . . . . .	175
Average membership of all the public school days . . . . .	2,135
Average attendance of all the public day schools during the school year . . . . .	1,997
The percentage of attendance based upon the average membership . . . . .	93.5
Population of Saugus . . . . .	10,902
Assessed valuation of taxable property . . . . .	\$7,812,801 00
Tax rate per thousand for all purposes, 1918 . . . . .	\$27 95

Of the above amount there was appropriated for use of School Department General Expenses, 1918 . . . . .	\$74,948 00
Proportion of total amount raised by taxation which was used by School Department . . . . .	33%
Appropriation for repairs . . . . .	\$4,125 00

# LIST OF TEACHERS AND JANITORS, SCHOOL YEAR, JANUARY 1, 1918

## High School

Name	Where Educated	Teaching	Appointed	Salary
Charles L. Smith	Harvard College	Principal	1916	\$1,800
Theodora A. Hooker	Boston University, Columbia University, A. M.	Com. Dept.	1914	1,200
David Hamblen, Jr.	Boston University, Salem Normal	Assistant	1917	650
Florence P. Davoll	Boston University	Assistant	1916	650
Sue L. Knight	Tufts College	Assistant	1916	650
Dorothy Bailey	Wellesley College	Assistant	1917	650
Johanna Spring	Radcliffe College	Assistant	1917	600
Gladys A. Merrill	Bates College	Assistant	1917	600
Grace A. Smith	Boston University	Assistant	1917	600
Ethel Gilpatrick	Colby College	Assistant	1918	775
Rachel C. Spaulding	Mt. Holyoke College	Assistant	1917	600
Nellie A. Hanson	Woburn Training School	Assistant	1916	850
M. Elizabeth Francis	Radcliffe College	Assistant	1915	600
Ruth Burbank	Tufts College	Assistant	1916	550
Katherine Holland	Salem Normal	Assistant	1916	600
Harriet C. Campbell	Farmington Normal	Assistant	1917	625
Nellie K. Bishop	Framingham Normal	Assistant	1916	600
Elizabeth E. Nelson	Castine Normal School	Assistant	1913	650
Clarice H. Kinsman	Salem Normal School	Assistant	1917	600
Katherine Moynihan	Salem Normal School	Assistant	1914	650
A. Louise Stetson	Gorham Normal School	Assistant	1915	600
Mildred L. Chapman	Gorham Normal School	Assistant	1913	650
Annie E. Nash	Gorham Normal School	Assistant	1915	650

## Roby School

Lillian D. Byrne	Tilton Seminary	Prin. Grade 6	1909	800
Olive C. Elliott	Salem Normal School	Grades 5-6	1916	550
Gladys I. Greenleaf	Castine Normal School	Grade 5	1917	500
Helene H. Perkins	Gorham Normal School	Grade 4	1916	550
Esther J. Nichols	Gorham Normal School	Grade 3	1914	650
Mildred Tarr	Salem Normal School	Grade 2	1917	500
Eleanor J. Sullivan	Salem Normal School	Grades 1-2	1916	525
Julia J. Nourse	Boston and Keene Normal	Grade 1	1917	525

## Felton School

Maria E. Smith	Castine Nor. School	Prin. Grade 6	1892	\$800
Marion Fullerton	Salem Normal School	Grade 5	1917	500
Elizabeth B. Taylor	Lafayette Train. School	Grade 4	1914	650
Jennie H. Dunn	Fredrickton Normal School	Grade 3	1916	550
Hazel T. Stackpole	Gorham Normal School	Grade 2	1915	600
Katherine Callahan	Salem Normal School	Grade 1	1916	550

## Lincoln School

Emma B. Hughes	N. J. State Normal School	Grade 6	1914	650
Mary C. Mackey	Hyannis Normal School	Grade 5	1914	650
Elizabeth W. Sheridan	Bridgewater Nor. School	Grade 5	1917	500

## Clifftondale School

Lilla G. Quint	Saugus High School	Prin. Grade 4	1898	700
Myra W. Beckman	Farmington Nor. School	Grade 3	1915	650
Doris K. Parker	Lowell Normal School	Grade 2	1909	650
Clara Trowbridge	Melrose High School	Grade 1	1892	650

**Armitage School**

Irene F. Thomson	Salem Normal School	Grades 3-4	1905	650
Jeanette Nicholson	Bucksport Seminary	Grades 1-2	1911	650

**Ballard School**

Elizabeth M. Scoville	New Britain Nor. School Prin.	Grade 4	1913	750
Sarah S. Biffin	Salem Normal School	Grade 6	1904	650
Helen Penny	Farmington Nor. School	Grade 5	1918	500
Clara D. Ferris	Fitchburg Normal School	Grade 5	1914	650

**Mansfield School**

Georgietta M. Manson	Salem Normal School			
	Lynn Training School Prin.	Grade 4	1912	700
Mildred Willard	Neil's Kindergarten	Grade 3	1917	500
Marah G. Stebbins	Symond's Kindergarten	Grade 2	1907	650
Laura H. Bailey	Salem Normal School	Grade 1	1914	650

**Emerson School**

Pauline R. Peckham	Dean Academy	Prin. Grade 4	1908	700
Evelyn M. Clapp	Worcester Normal School	Grade 3	1918	500
Marion E. Patriquin	Salem Normal School	Grade 2	1916	575
Marion J. Gallotte	Perry Normal School	Grade 1	1916	550

**North Saugus School**

Evelyn A. Stevens	Plymouth Normal School	Grades 5-6	1914	650
Mildred I. Flockton	Perry Normal School	Grades 3-4	1917	500
Myrtle I. Townsend	Farmington Normal Sch.	Grades 1-2	1917	500

**Lynnhurst School**

Sadie L. Sheehan	Keene Normal School	Grades 1-3	1916	550
Sarah Bucknam	Salem Normal School	Grades 4-6	1918	500

**Oaklandvale School**

Alice L. Seaver	Windsor High School	Grades 1-5	1911	650
-----------------	---------------------	------------	------	-----

**Special Teachers**

Gertrude Chapman	Salem Normal Sch. Coach, Cliftondale	1912	650
C. Louise Anderson	Presque Isle Normal E. Saugus coach	1913	650
Agnes C. Johnson	Boston University Music	1916	600
Florence F. Cooper	Mass. Normal Art School Drawing	1912	750
Alice M. Partridge	Framingham Normal Sch. Domestic Sc.	1917	600
Emma A. Bullard	Framingham Normal Sch. Domestic Sc.	1917	600
Napoleon B. Corthell	Castine Normal School,		
	Boston Sloyd	Man Training	1917 1,200
Eleanor W. Lee	Boston Normal Arts	Man. Training	1917 600

**School Physicians**

Dr. George C. Parcher	Precinct 1	1908	100
Dr. Thomas T. Perkins	Precinct 2	1911	100
Dr. George W. Gale	Precinct 3	1908	100

**Attendance Officers**

Thomas E. Berrett	Precinct 1	1915	50
James P. Sullivan	Precinct 2	1914	50
Frank W. Joy	Precinct 3	1895	50

## School Janitors

Andrew C. Lynn	High School	1916	1,050
Millard E. Verrill	High School	1917	800
James A. Marsland	Roby, Old and Manual Training	1909	825
George W. Atkinson	Lincoln, Emerson and Cliftondale	1916	950
C. C. Merrihew	Felton School	1902	600
Charles B. Rhodes	Ballard and Mansfield	1911	875
Charles E. Richardson	Armitage School	1919	125
George A. Porter	North Saugus Schools	1911	200
C. N. Wormstead, Jr.	Lynnhurst School	1900	150
George W. Winslow	Oaklandvale School	1912	85

List of Teachers and Janitors, School Year beginning  
September, 1918

Name	Where Educated	Position	App. Sal.	Sept.	Jan.
Lucie M. Norris	Boston University	Prin. Eng.	1918	\$850	\$1,600
Dorothy Bailey	Wellesley College	English	1917	800	900
M. Elizabeth Francis	Radcliffe College	Eng. French	1915	800	850
Nellie A. Hanson	Woburn Train. Sch.	French	1916	850	900
Rachel C. Spaulding	Mt. Holyoke College	Latin	1917	775	900
Ethel Gilpatrick	Colby College	Sciences	1918	975	1,000
**Ruth C. Brackett	Mt. Holyoke College	Lat. Biol.	1918	650	
**Lillian B. Cohn	Salem Normal School	Com. Sub.	1918	650	
Katherine Falvey	Bridgewater Nor. Sch.	Penmans'p	1918	700	800
Louise Porter	Boston University	Math. Ger.	1918	625	700
Thenice Powers	Bay Path Inst. and B.U.	Bkkg.	1917	850	900
	Coll. of Business Adm.	Shorthand	1918	850	900
